(LC 1440)
4/29/11 (HE/ps)

**PROPOSED AMENDMENTS TO
A-ENGROSSED HOUSE BILL 2328**

1 On page 1 of the printed A-engrossed bill, line 2, after “ORS” insert
2 “184.843,” and delete the last comma and insert “and”.

3 In line 3, delete “and 807.250”.

4 Delete lines 5 through 11 and insert:

5 “Whereas the citizens of the State of Oregon rely heavily on an extensive
6 multimodal transportation system for all aspects of living in a civil society,
7 including economic opportunities, community engagement, educational op-
8 portunities, maintenance of public health, enjoyment of life and disaster
9 management; and

10 “Whereas Oregon’s multimodal transportation system has 19,128 lane
11 miles of state highways, 26,737 miles of county roads and 10,799 miles of city
12 streets; and

13 “Whereas Oregon depends on fuel taxes for the bulk of the revenue re-
14 quired to preserve, maintain and modernize the state’s highway system; and

15 “Whereas as an alternative to the fuel tax, Oregon has developed systems
16 with the capability for participating vehicle operators to pay a vehicle road
17 usage charge based on miles traveled; and

18 “Whereas highly fuel efficient vehicles are now common in the market-
19 place, the operators of which pay much lower fuel taxes than the preceding
20 vehicle fleet, and new technologies will continue to improve fuel efficiencies
21 in these vehicles; and

22 “Whereas among the emerging fleet of highly fuel efficient vehicles are

1 electric motor vehicles and plug-in hybrid motor vehicles that pay no fuel
2 tax or a small amount; and

3 “Whereas the federal government requires auto manufacturers to intro-
4 duce a fleet of new vehicles that will meet a corporate average fuel economy
5 standard of 35.5 miles per gallon in 2016; and

6 “Whereas the Legislative Assembly recognizes the potential for applying
7 a new vehicle road usage charge based on miles traveled for the operation
8 of vehicles that pay less than the median amount of fuel taxes; and

9 “Whereas the state should develop and deploy a vehicle road usage charge
10 for a small group of vehicles to ensure operational availability of the charge
11 when the Legislative Assembly finds it is necessary to expand the number
12 of vehicles paying the charge; and

13 “Whereas the state’s constitutional requirement for cost responsibility
14 requires that a road usage charge be applied in a manner that ensures the
15 share of revenues paid for the use of motor vehicles is fair and proportionate
16 to the costs incurred for the highway system for each class of vehicle; and

17 “Whereas as a strategy to reduce emissions and protect the environment,
18 Oregon wants to encourage market penetration of electric vehicles and other
19 highly fuel efficient vehicles by providing a transitional rate for a vehicle
20 road usage charge during the early years of introduction into the market-
21 place; now, therefore,”.

18 reporting period based on the circumstances of each registered owner
19 or lessee. In determining the length of a reporting period, the depart-

19 Oregon for a period not exceeding 30 days without obtaining a user’s license
20 or the emblem provided in ORS 319.600, if, for all fuel used in a motor ve-
21 hicle in this state, the nonresident pays to a seller, at the time of the sale,
22 the tax provided in ORS 319.530.

23 “(2) A user’s license is not required for a person who uses fuel in a motor
24 vehicle with a combined weight of 26,000 pounds or less if, for all fuel used

26 the sale, the tax provided in ORS 319.530.

27 “(3)(a) A user’s license is not required for a person who uses fuel as de-

1 “(d) The vehicle is subject to the vehicle road usage charge under
2 section 2 of this 2011 Act.

5 retail facility may deduct fuel purchases made with a cardlock card from the
6 seller’s retail transactions if the seller provides the department with the
7 following information:

8 “(a) A monthly statement from a cardlock card issuer that details the
9 cardlock card purchases at the retail facility; and
