OUR TRASH = OREGON JOBS! Support HB414?

House Business Labor Committee
 900 Court St. NE, Room 453
 Salem, Oregon 97301

MEASURE: HB 4142
 EXHIBIT: 7
 2012 SESSION: H BUSINESS & LABOR
 DATE: 2/8/12 PAGES: 57
 SUBMITTED BY: Barbara Dudley

Co-Chairs Garrett, Kennemer, and members of the House Business and Labor Committee,

The export of America's paper waste to China is negatively impacting Oregon's paper mills – causing them to struggle with high prices and dwindling supply. These struggles have contributed to mill closures and bankruptcies and hundreds of jobs lost throughout the state with more on the brink.

Everyday, Oregonians throughout the state take the time to separate their recyclable materials - including paper - for curbside pick-up. Our country's paper waste is leaving our shores and headed to China instead of heading to paper mills that have responsibly converted their operations to make recycled paper – putting jobs and the environment at risk.

Recycling should create and maintain jobs in Oregon!

We, the undersigned, urge you to support HB4142 to save jobs and the environment.

Sincerely,

Gretchen	Bancroft	97006

Michael	Brassell	09213	I spend my teenage years living in Oregon City. I guess we took the economic vitality that the Smurfit, and later Blue Heron plant provided for granted. After the plant closed it wasn't long before the hilltop thriftway closed. My best friends mom worked there. Later in life I found myself building midrises downtown with the Carpenters Union. I listened in my hall as a worker from blue heron described how their plant was about to be liquidated, because they couldn't compete with chinese wages. Today I am an organizer with Working America, I have canvassed the neighborhoods where I grew up twice since then, a have seen first hand how our work, and our economy connects us . implore you please pass this bill and stand up for Oregon's workers. Sincerely, Michael Brassell
Julie	Blackman	97221	It is environmentally, socially and fiscally irresponsible to ship our locally generated materials to China for recycling. I urge you to source paper goods from the US and, specifically, from Oregon. If we don't address this now the day will come - soon - when we no longer have a choice.

Kathie Test	Test	97215	
Kathryn	Hanson	97225	Keeping jobs in Oregon should be a priority. I use recycled papers in my small business and it has become nearly impossible to find locally-produced fine recycled papers. Secondly, why help China? Why send jobs or materials to China? I'd like a good answer to this!
cynthia	enlow	97321	
Lorraine	Fowler	97734	
Dyarl	Burns	97470	I worked for a mill, that lost a lot of its resource materials by shipping them overseas to other countries. I lost my job because of the curtailment to the work force in the mill, and the eventuality of tl closing down, which it did a few years later. A lot of the reason this happened in my opinion is because of the practice it undertook in the short time of deleting its resource materials..... (make fast money, then don't worry about the people that need to have a long time employment stability in their lives). The policy of this company was to get the profits no matter what it did to anyone else...then sell off anything that was left, and send the workers home with not even a concern for what would be in their futures.....
Linda	Kostalik	97388	This is a good thing!
Duane	Haataja	97214	
Linda	DeMartini	97051	
Dakota	Otto	97520	Exporting our paper waste to Asia is both non-sustainable and illogical. First of all, it relies on fossil fuels which continue to increase in price; adding cost upon cost. Along with that, taking paper away from Oregon mills who are doing the right work by processing recycled paper are left in the lurch; unsupported. Secondly, the illogical nature of it is that we have many people out of work; politicians talk about creating jobs; yet at the same time sabotage their own efforts by exporting jobs. Is that not illogical?

JUANITA	VANZZINI CROUCHET	97030	We need jobs, in any industry.
Marisa	Espinoza	97218	This is not only to create jobs but reduce our environmental impact. Sending our recyclables to China or out of state in general is completely counterproductive to the environmental benefits of recycling.
James	Carter	97220	I had heard from Michael Moore about 'recyclable' materials being shipped overseas, but it seemed hard to believe. Now the evidence is clear, and it seems ludicrous that this is happening. This must change immediately or people will begin to say "just throw it away, recycling is a sham". Too many people do that already.
Lewis	Currie	97304	
Amy	Carpenter	97401	Why in HELL are we exporting recyclable paper to CHINA if we've got mills here that could use it? This one's a no-brainer...
CAROL	AHO	97266	FOR HEAVEN SAKES KEEP JOBS IN OREGON
Phil	Hanson	97202	
Emily	Dana	97221	I support keeping our paper waste in our state to provide jobs for my friends and neighbors. Let's keep those resources used in moving our waste across the globe here where they can benefit us.
Ric	Bernat	97212	
Richard	Wallick	97106	This bill would both help our economy and our environment -- a win/win situation. The bill would keep good jobs here while stopping the some of the incidious pollution China creates and sends with the rest of their products to Oregon.
Lincoln	McGrath	97202	
Richard	Sanchez	97401	Seem's like a win win situation for everyone, and I'm glad to see both parties working together for a change.

Oliver	Manuel	97280	More local jobs is good for EVERYONE. As a small business owner I seek out local business to do trade with and it has a positive impact on our local economy. This is a no-brainer!
Katherine	Lyse	97213	
nancy and george	shinn	97423	We need to invest in our country!
Steve	Jackson	97051	
Ron	Milton	97068	As a displaced employee from the Blue Heron Paper mill I know first hand the impact of exporting so much of our recovered paper off shore.
Victoria	Stoppello	97131	Save jobs and fossil fuels. Re-use paper waste here in Oregon.
Marian Drake	Drake	97213	HB4142 is very exciting! For years I have been advocating with Metro to find out why our recyclables are being shipped overseas. I felt really terrible when Blue Heron shut down. I used to be employed at an environmentally sound paper company, and am a writer so I love recycled papers. Also, I saw a 60 Minute special, or maybe it was PBS or 20-20, on the hidden problems for both the US and China. The example they used was recycled electronics, which are (US laws) illegally being shipped to China, and (Chinese laws) illegally being processed there in secret "recycling" centers. The TV cameras were at one of these centers, and the perpetrators of these crimes held their hands in front of the cameras to prevent the News from getting back to the US and elsewhere. These Chinese processing centers are extremely poisonous to the workers and the environment.
