Subject: HB 4101

My name is Pete Meenderinck and I am dairyman from the Boardman area, im all in when it comes to hb 4101 this bill would allow me to access the canal that just runs north of the dairy and irrigate the crops with a lot less energy and be better for the enviroment ,with having not to run the deep well to do the same thing . In addition this would just make the eastern Oregon economy more bullet proof and bring in more \$ to the great state of Oregon thur more taxes revenue. Thanks for your time , pete meenderinck.
