Dear Senator:

It has come to my attention that HB 4045.a is before the committee to become a part of Oregon law.

I feel that it is important that citizens be able to exercise the right to own a concealed carry permit

without fear of people in opposition to that right discovering their application.

This goes to the heart of a citizen's ability to exercise constitutional rights without being harassed

or embarrassed or even boycotted by those opposed to the constitution as it stands.

I urge you to support and approve passage of HB 4045 with the dash-33 amendments.

Thank you for attention to this important matter.

Sincere regards,

Wesley F Rampton, DMD
