**To:** Senate Education Committee  
**From:** Cami Curtis, educator  
**Date:** March 19th, 2013  
**Re:** Testimony in Support of Tuition Equity

---

Chair Hass and Members of the Committee:

As a fair and equitable educator, I cannot stress the importance of the Tuition Equity Bill. My students should have the same opportunities as those with means. Some of my most motivated, ambitious and brightest students are those who this issue directly impacts. These same students will be entering our workforce in the near future. It behooves us all to try and maximize our potential as a community. Bringing in more tax dollars would be one of the many benefits of this Bill. I implore you to consider this issue and make it an utmost priority. Please vote "yes" on tuition equity for our youth.
