

OREGON COUNCIL OF POLICE ASSOCIATIONS

Please Support HB 2041

Members of the House Transportation & Economic Development Committee

Chair Read and members of the committee my name is Steve Beck and I am President of the Oregon Council of Police Associations (OCPA). We would like the record to reflect that OCPA supports House Bill 2041.

While Public Safety Officers already have the ability, under current law, to use their employer's addresses instead of their personal addresses, many civilian employees who are threatened by criminals and come in contact with them as a part of their employment do not.

While the reason Public Safety Officers would request that their personal addresses not be made public seems obvious, those same reasons apply to certain civilians employed by public safety employers.

We ask that you support House Bill 2041.

Thank you.

Steve Beck
President
