EFFECT OF COMMITTEE AMENDMENTS:

BACKGROUND: Certain large hospitals in Oregon have been paying this assessment on their net revenues to help support the Oregon Health Plan (OHP) since 2004. The assessment, with the sunset extension, is expected to raise about \$600 million for the OHP in the 2013-15 biennium, assuming the current assessment rate of 4.32 percent on the total net revenue. This revenue will be distributed back to the hospitals based on certain procedures established by the Oregon Health Authority. This \$600 million in turn will be matched by \$1.014 billion in federal funds.

There is an additional one percent assessment over the current assessment rate. The revenue from this additional assessment will be distributed back to hospitals based on each hospital's achievement of certain performance metrics. The estimated revenue from this additional assessment is \$145 million in the 2013-15 biennium. This revenue will be matched by \$245 million in federal funds.

The assessment rate is set by the director of the Oregon Health Authority in consultation with representatives of hospitals. In total, the estimated revenue of \$745 million from the assessment will bring in \$1.259 billion in federal matching funds during the 2013-15 biennium.
