**Subject:** support of HB 3177- please submit to public hearing

Support of HB 3177 please submit to public hearing.

Any imported, sold fresh, frozen or at a restaurant GE Salmon should be legally labeled. These byproducts of the testing labs are not what I want to eat, buy or feed to my children and community. I have the right to know what I am consuming.

If there truly are no worries with GE products, than Monsanto, syngenta what ever company backing these products would not poor millions into campaigning against said labeling. There is unclear communication in what we truly are creating, dispersing and consuming as a nation. Why?

Please support HB 3177 so the people may continue to live within our differences.

Laura Campbell  
Jackson county voter.
