Hello public servants,

I am e-mailing you today to voice my support for HB2427 and protection from GMO crops. I believe these organisms are harmful to the environment and public health. As the owner of a small artisan soda brewery it is my duty to advocate for protection and preservation of the quality and supply of our food. Please recognize our concerns and protect us from the predatory tactics that are employed by these very large and well funded companies.

Thanks for your time!
