Hello! I am writing in regards to the current ban on Native American mascots at Oregon schools. I would strongly encourage you to pass the bills that would allow schools to work with their local tribes, something the tribes (and in particular the Grande Ronde & Siletz where the Molala tribe is associated) asked for, but the Board of Education ignored. What a great idea...to actually listen to the tribes and allow schools to work with them!

Please vote to allow the schools and tribes to work together, could be an amazing new history for valuing the Native contribution to Oregon culture.

Thank you for your time and consideration.
