

*As representatives of the Oregon Stroke Network, we look forward to the success of this bill, and the work of the resulting committee, to create a path ensuring that the highest standard of stroke care is accessible to all Oregonians, including equal access to acute stroke treatment. In addition, we support the establishment of quality measures and a state data base to assess and guide the quality of stroke care provided to Oregonians. The Oregon Stroke Network leadership looks forward to participating in this work moving forward.*

Respectfully,  
Ted Lowenkopf, MD,  
Oregon Stroke Network  
Vice President

Susie Fisher, RN  
Oregon Stroke Network  
President
