Please vote against these bills as it is my choice to protect myself with a firearm and not a cell phone. What most people do not understand is that calling 911 does not stop an intruder or attacker from proceeding it just lets the police know that the action is in progress or has just happened. Where I choose to live there is not a police officer just around the corner to come to my rescue. I have never used my firearm to cause harm to others because I was raised by two loving parents who taught me wrong from right.
