**Subject:** tuition kids

I had our data people pull some numbers to answer some of the questions that came up in committee on Monday relating to Riverdale. It appears from the data reported that Riverdale gains tuition students as the year progresses.

Attached is a spreadsheet that looks at all districts across the state. It includes Fall Membership 2012-13 and Annual ADM 2011-12. Fall Membership is more recent, but only includes students enrolled on October 1, 2012. Annual ADM will give you a more complete picture, but is last year's data.

A few things to note while interpreting the Annual ADM data:

- Students are included as "paid tuition" if they had *any* records indicating paid tuition during the school year. Some students may have been on paid tuition, but later re-enrolled in their original resident district, or switched to state school funded tuition once the districts involved were able to reach agreement.
- Not all students on paid tuition are Oregon residents transferring from one district to another. Some are resident in another state, but attend school in Oregon.
- Students may have been enrolled in more than one grade level during the school year. Fall Membership is unduplicated, but Annual ADM is not.
- Some students are enrolled as "paid tuition" if they wish to take additional courses after they are awarded a regular diploma and are no longer eligible for state school funding.

Below is a chart that summarizes demographics of students from the Fall membership as reported by Riverdale on October 1, 2012:
