Subject: Ban on horse roping

Dear Representative Reiley:

I oppose the ban on horse roping simply because of the possibility of the abuse in its language on behalf of law enforcement. They will be confused on its language as well. Knowing full well, that this practice is seen by the public and if any abuses were prevalent, they would be criticized as such. Please turn your efforts on the economy, jobs and far more important issues of our time. Roping horses, potholes and native plant species can be addressed when your constituents are not contemplating poaching once a week to ensure their elementary children eat a sufficient meal.

How about this as a focus...The unemployment rate.

7.6 Nationally

8.4% Oregon

Rarely does Oregon lead the nation in negative statistics. Well, unless we talk about pornography per capita or unemployment. Please tell me you will make this your focus 100%. If any one of us asks what you have done, and you can say you worked to help our economy and increase our jobs for 4 years, we would give you a standing ovation. Even if, you didn't support one other thing on the agenda of the House or Senate, we would applaud you.

Work for us please,

Dustin Miller
