Subject: horse roping

Beth Reiley good grief, what are you doing wasting your time and our tax money on something as stupid as this bill. Without a doubt you have spent your whole life in the city and have no concept of life with horses. Do you seriously think I would rope my horse around the leg and risk breaking a leg or killing the horse. they cost money, we feed them, we care for them, we get the vet for them , we would be stupid to hurt or kill them. With all that aside, if you did pass this bill, what would it cost to enforce it? Who would enforce it? Please stop this and get to work on fixing the economy and the serious problems we really have. It is this kind of stuff that makes the 90 percent of us , so mad at politicians. do your job and quit the silly kid stuff. sincerely, denise christianson
