I write to urge this committee to vote against HB3251. My family and I have camped on the Chetco River and other rivers in Oregon. As a native born Oregonian I resent the rabid environmentalists restricting the use of the riverbed to 200 pound or less ATVs. A 1200 pound bull elk does more damage than an ATV. Oregonians have a right to use their lands and not be restricted by these idiotic proposed laws. Please vote this bill down.

Thank you. Respectively, Leonard Cleary
