Subject: Oppose SB 790 and Oppose SB 885

Dear Senators,

Please oppose Senate Bill 790 and SB 885 because this legislation is not necessary in Oregon. There are Oregon laws in place to adequately address animal cruelty; these laws should be utilized to prosecute acts that are cruel to animals. We don't need additional animal cruelty laws that could involve unintended consequences that may interfere with current practices used in horse training, rodeo, ranching and other acts that do not injure the horse.

*While SB 790 and SB 885 seems to be aimed at "equine tripping" the statement "**A person commits the offense of equine tripping if the person intentionally causes an equine to trip or fall,**" seems to go much farther and could possibly be misinterpreted if this bill were to become law. Please oppose this legislation due to the possible unintended consequences.*

Thank you for your consideration,

Thank you for your consideration,

We are ranchers in Eastern Oregon and often feel so very distanced from our State Legislator and agendas of people who do not realize the impact on our area. I cannot imagine anyone more concerned with the well-being of animals than those who work with them and depend upon them. Sincerely...Bill and Bev White. (Loren and Beverly White)
