

April 5, 2013

The Multnomah Elders in Action Commission is pleased to announce that it has unanimously voted to endorse House Bill 3260, which would require the Oregon Health Authority to conduct a study that would result in a recommendation of the best option for financing health care in the state.

As Chair of the Commission, I have been authorized to make that endorsement known to the public. I invite all those who are interested to visit the Commission's web site at www.eldersinaction.org. We hope to be sending out an email soon informing the public about all of our legislative recommendations.

Steve Weiss
Chairperson
Multnomah Elders in Action Commission
