

Dear Representative, Senator:

My name is Roy N.L. Campbell. I' am writing this letter in response to your considering on passing bills # SB115, # SB370, # SB401, # SB838. I' am a disabled VET, own my home, vote, pay my taxes and love to gold mine on my claim. I also love to hunt and fish and now I feel that people are trying to take this away this freedom that I fought for away. I hoping that the time I have left and can still enjoy this freedom. These bills are targeting all recreational small placer mining. You want to levee several laws with one year in prison and \$6,250.or both along with taking all are mining rights away. Along with this you are considering miners to purchase permits and failure to do so you'll have prison time and fines on them. I treat the out doors with all respect and I'm very considerate in protecting it for the future. I follow all the rules that the Forest Service and B.L.M. require and then some. I ask if you can see it in your heart NOT to take away what freedom that we all have left. All I ask is for you to look closely at bills # SB115, # SB370, # SB401, # SB838 and consider all the lives you'll be changing in what people love to do in the outdoors.

Roy N. L. Campbell
