

Dear Hearing Committee related to HJM6

4/10/2013

We The People-Eugene supports House Joint Memorial 6

House Joint Memorial 6 was introduced by Brian Clem. This great bill needs the vital support of modern day heroes and heroines who believe that their being extends beyond our skins and includes the environment as well as other human beings.

It declares that CORPORATIONS ARE NOT PEOPLE. They should not be entitled to rights intended for humans. It REVERSES CITIZENS UNITED, a blight on our system of laws, one of the reasons why people are so discouraged by our present system and feel powerless.

It declares that MONEY IS NOT FREE SPEECH.

This is an aberration which causes many to feel that their ideas have no importance. That Democracy is only for the rich which can pay the media and politicians to carry their advertisements forth and essentially do their bidding.

There are other bills related to this, but HJM6 is the only one that doesn't undermine our efforts by leaving the job unfinished so please SUPPORT only House Joint Memorial 6. Don't dilute the message. Be part of the people who want to see truth untarnished.

Thank you, David Ivan Piccioni, Eugene OR 97402
