

April 11, 2013

Honorable Chair Senator Lee Beyer, Vice-Chair Senator Bruce Starr, Members, Senator Chuck Thomsen, Senator Chris Edwards, Senator Fred Girod, and Senator Rod Monroe,

I oppose SB833

This bill would allow illegal aliens to obtain short term but renewable driver's licenses.

SB833 interferes with commerce by allowing illegal aliens to take our benefits of citizenship robs us of through higher taxes. more competition for jobs, higher health care costs.

This law if passed would allow someone to appear as if they had legal presence for work and/or receive benefits from Oregon. The loss would be difficult to establish.

Government should recognize and follow it's own laws, not disregard them. Some of the types of documents allowed under this bill, such as a consular card are not even recognized by our notary publics as proof of identity. This is also a renewable license, so it is really not a short term license, it just has more fees associated with it.

Government should not allow illegal aliens to take jobs that law abiding citizens have the ability to do. Driving is a skill that is used for many types of work. Allowing illegal aliens to take these jobs will disrupt the free market system.

This is against any control be it local, state or federal as it allows the disregard for immigration laws. Please do not pass this bill.

Respectfully,
Janice Dysinger
