Dear Beth,

Please do not vote yes on SB217. It is a disgrace to our society. Water should be free for every person, also for the fauna and flora in our country... as god ment it to be..... This would be a disgrace to Oregon if it passed!!!

If you need more money, get rid of Agency's at the State level that are whining for more with their inflated budgets that are sucking us dry as well as the pensions for Oregon State Employees...
