Subject: Citizen against Senate Bills 217 & 401

Dear Senator:

I strongly urge you **not to support** Senate Bills 217 & 401.

The \$100 annual fee set by **SB 217** is arbitrary and unfair; we pay an inordinate amount in taxes already, and it's time for Oregon government to manage taxpayers' dollars so that administrative costs will be covered by existing funds.

Scenic designation of waterways under **SB 401** would preclude new wells and other water uses near those rivers and this would unreasonably burden private development on private land anywhere near a designated waterway.

Please...stop this erosion of Oregon citizens' rights and treasure. Cut government spending now and enable a healthy economy for all.

It's your job!

Sincerely,

Jill Toevs
Hines, Oregon
