

Please let Sens. Beyer, Starr, and their SBT committee members know that one more citizen is adding his name to the list of those who favor SB850. It is odd and amazing to me - I am 54 years old - that our freeway driving behavior has drifted so far, collectively, toward hanging in the left lane, leaving the ambitious to pass opportunistically to the right or center. Once we had a system everyone understood and accepted. Where on Earth did it go? Thank you.

- Sam Lowry, Portland
