

IBEW Local 125

International Brotherhood of Electrical Workers

February 14, 2013

Dear Chair Bailey and Members of the House Energy and Environment Committee:

On behalf of the International Brotherhood of Electrical Workers Local 125, I am writing today in support of House Bill 2274. House Bill 2274 would ensure that electric utilities report the actual greenhouse gas emissions associated with electrical generation.

House Bill 2274 would ensure that emissions are accurately reported. Regardless of whether an environmental attribute has been removed or added to the electricity, the actual emissions would be reported.

IBEW Local 125 supports House Bill 2274 because it is good public policy, establishes common sense requirements related to accounting of greenhouse gas emissions, and is good for consumers and utility workers.

Thank you for your attention to this issue. We urge you to support House Bill 2274.

Sincerely,

A handwritten signature in blue ink that reads "Marcy Graff". The signature is fluid and cursive.

Marcy Graff
