

Chair Holvey and members of the House Committee on Consumer Protection and Government Efficiency:

I testified in favor of SB 963 in 2011. Recently I reviewed SB 963 prior to it being submitted for this committee's consideration. I found not one thing in this bill that I would change. To the contrary, I still believe that the provisions in SB 963 will go a long way to protecting Oregon's injury victims and their families in factoring transactions. This is much needed legislation that I fully support.

Please contact me at 503-880-5615 if further discussion is warranted.

Jack Meligan
