

RE: Senate Bill 602-A FOR THE RECORD

Dear Senator Prozanski and Member of the Committee:

My husband, Walt, and I strongly urge you to pass SB 602-A and move it through your Committee with a "Do Pass" recommendation.

When we choose a mountain lake for a camping trip - Waldo Lake is our very favorite. Our need is to escape the noises of town and civilization. Our intent is to enjoy the purity of the place without motors of any kind on the lake. Allowing airplanes, though probably not arriving often only disrupts the tranquility - and may open the door in the future for motor craft. Please do not let that happen.

Thank you for all your hard work.

Sincerely,

Walt & Barbara Stoeffler  
2859 Tandy Turn, Eugene 97401
