Re: The City of Eugene Supports HB2267, Oregon Production Investment Fund

Dear Co-Chairs Burdick and Barnhart:

I am writing to let you know that the City of Eugene supports House Bill 2677 which provides for an Oregon Production Investment Fund.

The City recognizes the economic benefits of filmmaking production in our community. Site selection incentives for Oregon is a smart business investment that has an immediate and substantial return on investment, while also supporting thousands of jobs for Oregon workers, including those who reside in Eugene.

The Oregon Film and Video Office documents the economic impacts of their incentive programs, and the effectiveness of Oregon's Production Incentive Fund has been quantified. In addition, Governor's office staff have been active in ensuring that incoming filmmaker are referred to mid-Willamette Valley film professionals and production crews; and this is now a healthy production networking association ([www.mopan.org](http://www.mopan.org)), of which the City of Eugene is a member.

Unfortunately, Oregon's current incentive program is sometimes overshadowed by rebates and incentives offered by other states; but HB2267 will go a long way towards helping Eugene and other Oregon communities which have talented and available production professionals.

Thank you for your consideration of the Eugene's Support for the Oregon Production Investment Fund and House Bill 2677.

Sincerely

Pam Berrian
