RE: HB 3521

5.8.13

Please oppose the above referred bill because there have been too many examples of election offices inefficiencies to expect competence from agencies with other priorities;

Here are some examples:

Just recently 444 Voter Notification cards were mailed to incorrect addresses in Multnomah County. Those cards make the people to whom they should have been sent (unclear why) vulnerable to identity theft. It is to be hoped that each of these people have been issued a letter from the election office, alerting them to this potential problem.

In 2012 a 1000 voters received ballots which couldn't be voted on, because they were an incorrect ballots style. To say the least it caused confusion, delays and unnecessary costs.

The same Voter Notification cards are being issued to voter registration applicants who have failed to provide any proof of identity. Since these are government documents they can falsely be used both in and out of Oregon as an identity credential, since there is no warning indicating that the card does NOT guarantee the recipient's identity.

There are also deceased voters on the electoral roll, that are still being sent ballots and votes have been cast for them. Regrettably there is reliance on DMV records, which probably wont be fully reliable for at least a couple more years due to the largest Immigration Fraud in Oregon history uncovered in 2003. It was revealed via testimony from DMV officials during the trials in 2005 & 2006 that a high percentage of the fraudulent records were destroyed.

In closing, the emphasis for now should be improve the efficiency of the electoral system and avoid the confusion of relying on other agencies whose staff have other duty priorities.

Hon. Kris Kobach
Secretary of State, Kansas

Dear Fellow Citizen,

Every time that an illegal alien casts a vote it cancels out the vote of a United States citizen.

The Obama Administration is unconcerned about this threat to the American electoral system.

Many members of Congress, particularly those on the Left, seem to think that maintaining the integrity of our voter rolls is unimportant.

I am personally grateful for your concern and your actions on behalf of this great nation.

Respectfully yours,

***Calling on Governor
John A. Kitzhaber, M.D. and the
Oregon State Legislature:***

To enact legislation requiring all unregistered voters to present a government issued Identification Card and Proof of Citizenship before registering and participating in any election held within the state of Oregon.

Dear Governor John A. Kitzhaber, M.D. and members of the Oregon General Assembly.

In submitting this petition, we the people of the STATE OF OREGON respectfully call on you to pass legislation that protects the integrity of local, state, and federal elections and which requires all unknown voters to present a government issued Identification Card and Proof of Citizenship before registering and casting a ballot.

As concerned voters, we turn to you – our state represents – to address this crisis at the state level due to the failure of the Obama Administration to take action at the Federal level.

Specifically, President Barack Obama and members of his administration permit 3,000,000 illegal aliens to cross our border every year, and refuse to enforce federal statutes that prohibit unknown voters from registering and casting ballots in American elections.

We the people of Oregon are understandably outraged that fraudulent voting by illegal aliens could determine the outcome of an American election and I join my fellow residents in calling for immediate action.

We therefore urge you to strengthen current law or enact new legislation that requires all unknown voters to present proof of citizenship and a government issued photo ID before registering and voting in federal, state and local elections.

Signed:

Mr. Matthew ...
