Oregon Health Care Committee

Re: HB2922, Single Payer Health Care for Oregon

Committee Members,

Please accept and enter this testimony regarding HB2922:

This HB would enable:

1. Everybody to receive health care when they need it
2. Fewer deaths due to lack of insurance
3. Fewer foreclosures, bankruptcies and financial crisis due to medical bills
4. Earlier treatment of health conditions to prevent expensive crisis care
5. People to choose health providers
6. Reduce administrative costs
7. Portability for those who lose or change jobs
8. Reduced spending on 'defensive medical care'

Please support this bill.

Thank you,

Leslie Redpath
