

HB 2462 – Prohibits allotment cuts to the DOR when the Governor must otherwise make across the board cuts

Testimony for Senate Finance and Revenue, Peggy Woolsey 5.13.2013

HB 2462 - Prohibits the Governor and DAS from reducing the funding allotment for Department of Revenue, during a projected revenue deficit.

Clearly this is a no nonsense piece of legislation.

The Department of Revenue is the cash register clerk for the State's business.

- DOR runs a very tight ship on staffing
- Reduce funding affects revenue producing positions, which reduces revenue
- Increases to funding during past recessions resulted in increased revenues

This bill helps us avoid shooting ourselves in the foot, during recessions.
