

I have heard about this HB 2387 to change out statues and I ask why oh why is this bill needed? Our economy is hurting, people are out of work and I find some of our legislators are more interested in building a new statue to replace another one in the US Capital. Is this something that will revitalize our economy? Oh, yes, I'm sure it will make some individual artisan rich, but what about the rest of the Oregonians that are out of work and need employment. This bill is not needed. It is wasteful. Leave the statues in DC alone and pass bills to help get the economy going for a majority of the out of work Oregon citizens. DO DEFEAT this HB 2387.

Sincerely,

Tom Bolz
