MEMORANDUM

**To: House Committee on Health Care
From: Joseph Eusterman MD
Subject: HB2922
Date: May 13, 2012**

With respect, in my opinion, the current huge efforts using the CCO approach to fix the terribly inept health care non-system in Oregon, (and the nation) has already clearly proven to be, as predicted, incremental and fractured.

HB 2922 is the solution.

Thank you.
