

**Driving
School
Association of
Oregon**

On behalf of the Commercial Driving Schools in Oregon, DSAO would like to endorse House bill 2264.

We believe students who are unable to pay an enrollment fee should be given a chance to take a class that would have the potential of saving lives. All students of driving age should be given the ability to be in a program that could give them safe life skills.

We also believe that students in all parts of Oregon should be given the chance to learn safe driving skills. This bill will enable those students in smaller or remote communities to have the opportunity to make all roadways safe in Oregon.

Thank you,

Loree Nosack
President
