

IBEW Local #932

The International Brotherhood of Electrical Workers Local #932 represents electricians who live and work throughout the central and southern coast areas of Oregon - From the California boarder to Lincoln City.

Support for HB 3276

Coos Bay Rail Property Tax Exemption

The members of IBEW Local #932 urge your support of HB 3276 and the Coos Bay Rail Property Tax Exemption. This exemption is important to provide additional funds for rail improvements and bring much needed economic development to the South Coast via the rail system.

Requiring property taxes on the line will detract from critical investments to the bridge and tunnel repairs necessary to keep it open and avoid service restrictions.

The railway is the main artery for current and future economic development in Coos Bay and is critical for its success. Additional property taxes will only hinder support and funding for revitalization projects on the Rail Link.

Keeping the Coos Bay Rail line open and functional means economic development and job creation on the South Coast.

Supporting the Coos Bay Rail is important to the continued growth and development of our South Coast industries, manufacturers and exporters.

We urge your support of HB 3276
