Subject: House Bill2624A

Hello Shelley,

Thank you for taking comments. I am quite opposed to this bill. Many of us volunteered hours and hours working to get a ban on hunting cougars with dogs. The ban won in a state wide election. Now some hunters want to get around the law, by convincing legislators to overthrow the will of the people. I find it outrageous that they are even taken seriously. If they don't like the law, they need to give up trying to "pull one over " on the people of Oregon, and file their own initiative. Then, if the majority of Oregonians vote to overturn the ban, that is one thing; but this way is sneaky, devious, and I believe legislators thinking of voting for it, should consider that this is a ban the majority legally voted into place. Thank you Kathleen Blevins 394 E. Vine St. Lebanon, Oregon
