**Subject:** HB 2821-A  
**Importance:** High

Dear Committee Administrator . . . I would like to tell you that I am very opposed to HB2821-A. It is already know that 1 in 7 drivers do not have auto insurance. If this committee votes this bill in there will be more people driving WITHOUT insurance than with it. Have you looked at your insurance premium lately? All the recent increase have been caused by legislators that have no regard for the normal, hardworking Oregonian.

If this group could write a bill that a normal person could understand and comprehend we might know what was actually in it. I've tried to read it several times and give up because it is so poorly constructed and the meat of the subject is buried somewhere in the "bla, bla, bla". We need to stop this trash from being passed.

I believe those on this committee can make an informed decision and vote for the People of Oregon by voting NO!!

Dawnn Brown
