

HB 2919 Summary Regarding Marijuana in Oregon

What is HB 2919?

1. Allows for Fit-to-purpose technology oversight, tracking & legal framework
2. Allows for professional scientific and research persons to participate professionally as full-time resources, researchers and educators.
3. Allows for internal solutions to state and federal enforcement objectives.
4. Allows direct physician and medical community engagement.
5. Allows for agriculture, medical, chemical, genetic, operational and financial data for marijuana related decision making
6. Utilizes the State's medical-use & 10th Amendment authorities to allow a professional medical-use based marijuana program
7. Engages marijuana as a beneficial technology.
8. Allows a professional program to generate research funding.
9. Alleviates marijuana efficacy burden upon physicians
- A. Establishes a Professional Assessment & Oversight Board of experts
- B. Allows practicing medical doctors in Oregon to voluntarily possess and distribute small amounts of marijuana, like pharmaceutical samples.
- C. Requires industry transparency to include financials, inventory, custody & annual reporting Requirements
- D. Allows outdoor, greenhouse, and indoor farm sites to voluntarily register with the pilot program based on competency & participation with a transparency requirement.
- E. Allows research sites to voluntarily register with the pilot program based on competency & participation with a transparency requirement.
- F. Creates a professional service permit registration of roles based on individual's legal History and demonstrated competency with regard to role performed & participation with the Transparency Requirement.
- G. Creates a distributor permit based on a legal history and demonstrated competency with regard to role performed & participation with the transparency requirement.
- H. Creates an inspector permit based on a legal history and demonstrated competency with regard to role performed & participation with the transparency requirement.
- I. Creates an affirmative defense for legal participants.
- J. Limits sites to appropriate zoning.
- K. Limits sites to 18 for 5 years, and then removes site number-only restriction.

What is HB 2919 not?

- i. It is not a Research Project itself; it allows professional-grade researchers to contribute and guide Oregon's Marijuana Program.
- ii. It's not legalization
- iii. It's not driven by marijuana advocacy
- iv. It's not a program; it's legal framework.
- v. It's not funded by the State
- vi. It does not treat marijuana as a tolerated illegal commodity.
