Statesman Journal OPINION PAGE

I understand that California which is about broke but still pays the tuition for their higher education students have cut the number to be allowed into the program by 40,000.

The Governor of Oregon's is putting forth a new bill # (2787) which if passed, allows any out of State student to save \$20,000 a year on their tuition. Where do you suppose these kids will go. They can save \$20,000, a year by heading for Oregon.

Run your own numbers on this. But it will cost us millions of tax payers dollars. What will you do when your taxes go up?

Take note Governor Kitzhaber and all you Public servants that we send to Salem to represent us, a vote for this is not a vote of intelligence.

CORRUPT SENSE
