BACKGROUND: House Bill 2500 (2009) established the Oregon Transparency Website. A series of bills enacted by the 2011 legislature added requirements for reports from education service districts (ESD); for public meeting notices from agencies, boards and commissions; for reports on tax expenditures issued for economic development; and for reports on county expenditure of lottery funds.

House Bill 3035 A requires the Transparency Oregon Advisory Commission to develop plans for the future of the Oregon transparency website. Specific plans are required for the addition of certain information or links to information, for regularly updating website content, and for the long-term vision of the website with an emphasis on ease of use. All of the required plans are due to the Legislative Assembly by January 1, 2015.
