

HB 2445

Relating to school-based health centers

HB 2445 requires the Oregon Health Authority to develop an evidence-based system of care that meets the developmental needs of adolescents, and to establish procedures and criteria for certifying and decertifying school-based health centers. The bill also requires the agency to convene work groups to recommend best practices for school-based health centers, and to develop recommendations for the use of school-based health centers for children who qualify for medical assistance.

The proposed amendment expands services at school-based health centers to include administration of vaccines, and includes a General Fund appropriation.

The \$4 million General Fund included in this bill will allow the agency to provide funding to existing school-based health centers to bring all centers closer to parity in state funding, as well as provide funding to centers that are in the planning stages. The funding will also provide incentive funds to promote better business practices. Three positions are included to support the expansion.

The Human Services Subcommittee recommends HB 2445 be amended and reported out do pass, as amended.

Summary of Revenue Changes

House Bill 2445 makes no changes to the fees charged or revenues generated by the Oregon Health Authority (OHA). This bill is funded with a General Fund appropriation.

Summary of Human Services Subcommittee Action

Senate Bill 2445 requires the Oregon Health Authority to develop and continuously refine an evidence-based system of care that meets the developmental needs of adolescents, and to establish procedures and criteria for certifying and decertifying school-based health centers. The bill requires the agency to convene work groups to recommend best practices for school-based health centers. A separate work group is required to develop recommendations on the use of school-based health centers for children who qualify for medical assistance. OHA is required to report on the progress of this work group to an interim committee by December 31, 2013.

The bill expands the definition of “school-based health center” and requires OHA to use funds allocated by the Legislative Assembly for the expansion and continuation of school-based health centers, and to direct funds to communities with certified school-based health centers and to communities planning for certified school-based health centers. The \$4 million General Fund included in the bill will allow the agency to provide funding to existing school-based health centers to bring all centers closer to parity in state funding, as well as provide funding to centers that are in the planning or construction stages. Centers currently receiving \$41,000 per year are expected to receive \$53,000 per year. In addition, the funding includes approximately \$750,000 to provide financial incentives to promote better business practices, such as improved billing rates and adoption of electronic health records. Two full-time positions and one half-time position (2.19 FTE) are included to support the expansion of the system.
