

Subject: SB 488 Opposition

Senator Rosenbaum:

Please enter in to the record my opposition of SB 488 at this time.

After Senate Rules received the bill, an immense amount of time was spent on SB 306 to direct LRO to conduct a study on the impacts of carbon fuel tax issues along with programs passed related to SB 488 previously by the Legislature. Apparently the agreements to conduct such a study prior to moving forward with SB 488 were mythical in nature. Therefore, see no reason to support SB 488 in any manner.

Likewise, there may be little need for SB 306 now.

Please enter ths oppostion into the bills public record.

Let the games begin.

Sincerely,

Brian J. Boquist
State Senator
