

SB 498

Relating to the Career and Technical Education Revitalization Grant Program

SB 498 provides additional resources for the Career and Technical Education Revitalization Grant Program that is administered by the Oregon Department of Education. This program provides grants to school districts, education service districts, and other schools for the purpose of enhancing the collaboration between education providers and employers, developing career and technical programs, and expanding the professional growth and career opportunities for students.

The Education Subcommittee recommends an additional \$7.5 million for this grant program. This amount is in addition to the \$1.9 million currently included in the budget of the Department of Education.

The Education Subcommittee recommends SB 498 be amended and reported out do pass as amended.

Summary of Revenue Changes

The funding for this increase in the Career and Technical Education Revitalization Grant Program is entirely General Fund.

Summary of Education Subcommittee Action

The Career and Technical Education (CTE) Revitalization Grant Program is established in ORS 344.075. Grants through this program must be used to enhance the collaboration between education providers and employers by: developing or enhancing career and technical education programs of study; expanding the professional growth of and career opportunities for students through career and technical education programs; assessing the ability of each career and technical education program to meet workforce needs and give students the skills required for jobs in this state that provide high wages and are in high demand; and supporting the achievement of the high school diploma requirements.

The Department of Education’s (ODE) base budget in SB 5518 includes \$1.9 million for the CTE Revitalization Grant Program. This bill, SB 498, increases the amount available for the program by \$7,500,000. The Subcommittee directed the agency to award grants totaling at least \$1 million to be used for CTE projects directly involving CTE Student Organizations. In addition, the agency was directed to award at least \$1 million in grants to be used for CTE projects that have a clear tie-in to STEM (Science, Technology, Engineering, and Math).
