

Please accept my comments about the expected upcoming PERS/budget discussion. First off, to keep a plan "secret" is contrary to transparency policy expected of politicians. Second, I object to the short notice of a very important matter.

Many teachers recently have not been given salary raises due to budget cuts/furlough days, etc. Now to be expected to be cut again, once retired, is unfair and unnecessary.

I do not support any further cuts to PERS recipients.

Larry Barker, Eugene Democrat
