

Senate Committee,

Please DO NOT support additional cuts to PERS. I am retiring this year and I have contributed most of the \$44,695.55 to my IAP account. I cannot draw it monthly for 20 years because by payments would be **under** \$200 (two hundred). How could anybody live on that amount of money? Most people do not realize how the IAP works. The old PERS was great but earlier legislation this year has already taken care of many problems.

Sincerely,  
Linda Bergstrom
