

Dear Chair Garrett and members of the House Committee on Rules:

I just found out about Senate Bill 6 and its recent amendments. I am very concerned about the unintended consequences of this bill, and hope that you postpone passage of this bill and perhaps form a workgroup that includes stakeholder (including small animal rescue groups) to discuss this in the interim.

I am a volunteer and foster parent for a cat rescue shelter in Salem; however, I neither speak for, nor represent, any group. I am afraid that some of the proposed regulation could essentially shut down small but effective, life-saving rescue groups. I just ask that committee allow for some thoughtful communication with these groups to avoid unintended consequences.

Sincerely,

Mesheal Heyman
