To Whom Ever:

I am an 82 year old widow living on SS and own my home since 2004. I am devastated by the withdrawal of my tax deferral status.

This was assisting me in paying my Long Term Health monthly invoice. It amounted per year to about the same as my taxes, therefore, I was able to pay it. Now NOT...

The reason for my being dropped was that my house appraised for too much money in Deschutes Co.??? Who decides this???

Houses are not selling for more than we paid for them in 2004 at this time.

Why did the people with Reverse Mortgages get another 2 years of deferral. They received money for the R. Mtg. and had it to pay their taxes in two years. Can anyone tell me why this differential between the "haves and the have nots"???

What, if anything can be done at this stage on this problem?

Sincerely,

Audrey Dryden
