My personal story is this: My wife had been dieing for many years a very slow death. Because of the economic times I found it necessary to take out a Reverse Mortgage to pay our many Bills. My Tax Deferral was taken away because of the Mortgage and also because my home was of too high a value. I had Klamath county re-appraise and found I was in the wrong class and value was adjusted considerably lower. But I still did not reach the state standards because they were lowered as well for this county. We were living on Social Security along with my wife's small pension. My wife, Bonnie, died August 25, 2012 after a horrible struggle.

What should be done is strong consideration should be given to individuals like me for again be given back my Property Tax Deferral. My income is so low now that I have had to give up my supplement Medical Insurance to Medi-care and now rely on my Veterans benefits for help. I'm 77 years old and I don't want to live in a ditch so please, please reverse your decisions.
