Dear Co-Chairs,

The Oregon Petroleum Association (OPA) is the statewide association of fuel distributors, retailers, commercial fueling and heating oil marketers. It brings together business people who have similar goals and concerns and gives them the advantages of a unified coalition of fuel professionals. With over 140 marketer, fuel dealers and associate members, OPA is the state's leading resource for industry-related education and support. OPA members account for more than 65% of all petroleum products sold in Oregon.

OPA strongly supports the work of the Oregon Department of Agriculture, Weights and Measures Program. We have worked with Clark Cooney specifically and have been extremely impressed by the Program's excellent customer service. Our members strongly support the work of the Department and look forward to our future dealings.

Thank you,

Paul Romain
