To: Senate Health Care and Human Services Committee  
From: Chairwoman Senator Laurie Monnes Anderson  
Date: February 19th, 2013

**Re: Testimony in support of SB 568**

Members of the Committee, as a legislator and chair of this committee, it is great when a bill is brought before us that is the product of a collaborative and constructive nature. I am very happy to be a chief sponsor and have the opportunity to testify on its behalf.

This bill is part of a package delivered to the legislature between the Governor's team, the Oregon Health Leadership Council and the Oregon Association of Hospitals and Health Systems. Its passage will help ensure successful implementation of Oregon's historic health care transformation.

I will let the panel provide you with an overview of this bill but I urge your support with a do pass recommendation.

Sincerely,

A handwritten signature in cursive script that reads "Laurie Monnes Anderson".

Senator Laurie Monnes Anderson
